From the desk of Rep. Rogers

Greetings from the Ohio House of Representatives! The beginning of the summer season provides a good opportunity to recap activities at the House and around our community.

The United Negro College Fund (UNCF) Toledo Mayor's Luncheon was a great success. I was proud to speak at the event about the good work the UNCF does and why it is necessary. Providing pathways to college for those who may not otherwise have any is admirable work and I was honored to be able to show my support.

The 2024-2025 Operating Budget is undergoing further deliberations in Conference Committee to sort out differences between the House and the Senate. I am continuing to advocate to fully fund our public schools, fund Ohio's food banks, and to bring necessary resources to northwest Ohio.

On June 19th, we observed Juneteenth. Juneteenth is an opportunity to celebrate African American people, our culture, history, and our ongoing contributions in the tireless fight for equality, democracy, freedom, and justice. What better time to reflect upon the past while crafting a bigger and brighter future. We have come this far by faith... and the journey continues... keep the faith!

Please do not hesitate to contact my office with any questions, comments or concerns.

Sincerely,

Elgin Rogers, Jr.

UNCF Toledo Mayor's Luncheon

Our children are our future. On National Children's Day, we reflected on the challenges many children around our state and country face. We need to ensure our children have access to a quality public education, food on the table, and a future to be hopeful about.
